

SmileDirectClub Reports First Quarter 2022 Financial Results

May 9, 2022

Q1 2022 Revenue Increased 20.1% and Shipments Increased 15.3% vs. Q4 2021

NASHVILLE, Tenn., May 09, 2022 (GLOBE NEWSWIRE) -- SmileDirectClub, Inc. (Nasdaq: SDC), the next generation oral care company with the first medtech platform for teeth straightening, today announced its financial results for the first quarter ended March 31, 2022. Revenue for the first quarter of 2022 increased 20.1% compared to the fourth quarter of 2021 with gross profit up 32.5% for the same period.

First Quarter 2022 Financial Highlights

- Total revenue of \$152 million, a 20.1% increase over the fourth quarter of 2021 and a decrease of 24.0% over the prior year period.
- Net loss of \$(73) million, an improvement of \$22 million over both the fourth quarter of 2021 and the prior year period.
- Adjusted EBITDA of \$(34) million, a \$27 million improvement over the fourth quarter of 2021, and a decrease of \$39 million over the prior year period.
- Diluted EPS of \$(0.19), an improvement of \$0.06 over both the prior year period and fourth quarter of 2021.

Key Operating Metrics and Strategic Highlights

- First quarter unique aligner shipments of 76,254, a 15.3% sequential increase over 66,133 shipments in the fourth quarter of 2021.
- First quarter average aligner gross sales price ("ASP") of \$1,890 compared to \$1,899 for the fourth quarter of 2021.
- On April 27, 2022, completed a new \$255 million secured debt facility, strengthening the Company's liquidity with greater flexibility to fuel its continued operations and growth plans.

"We are off to a good start for 2022 and on plan with the right-sizing of our operating structure and allocating capital to core growth initiatives that can produce the highest return on investment," said David Katzman, Chief Executive Officer and Chairman of SmileDirectClub. "These actions have positioned us to further advance our strategic growth initiatives, including oral care, profitable SmileShop expansion, technology and product innovation, and our Partner Network, which are all demonstrating encouraging results. Additionally, we also strengthened our liquidity position with the announcement last month of a new \$255 million secured debt facility that gives us financial flexibility to continue making investments in key strategic growth areas of our business. We remain optimistic on our business outlook for 2022 and beyond."

Business Outlook

SmileDirectClub's mission is to democratize access to a smile each and every person loves and deserves by making it affordable and convenient for everyone. Every decision and investment the Company has made is to support and expand this mission and enable its long-term growth potential. SmileDirectClub possesses the unique assets and innovation to disrupt the incumbents, the agility to adjust to the needs of its customer, and a sustainable brand that is top of mind with consumers. The Company has been issued 36 patents and counting for its innovations in orthodontic treatment planning, aligner manufacturing, smile scanning technologies, its proprietary telehealth platform and a variety of other areas. There are many more patents pending and in the pipeline in both the US and abroad on various technologies relating to data capture, 3D image capture, intraoral scanning, monitoring, manufacturing, and consumer products. In addition, the Company has enabled treatment for over 1.7 million customers, built the only end-to-end vertically integrated platform for the consumer at scale, created a Dental Partner Network with 673 global practices that are live or pending training, created oral care products available at over 16,300 retail stores worldwide, and remains the strongest teledentistry brand with 60% aided awareness.

When consumers are considering straightening their teeth, they typically do one or all of the following: One, they search online to understand their options; two, they might ask a dentist; and three, they might ask a friend or family member which option they should choose. Based on the Company's research, consumers have noted its product and customer experience is nearly identical to Invisalign, 60% less expensive, and more convenient. For other teledentistry platforms, its research showed that significantly fewer customers would recommend those brands compared with SmileDirectClub customers. The U.S. Brand Tracker first quarter survey separately noted that the Company's unaided and aided brand awareness continued its separation from its teledentistry competitors and closer awareness compared to Invisalign. Additionally, the Company's pioneering telehealth platform was recently recognized by MedTech Breakthrough, winning the "Best Telehealth Platform" award in 2022.

In addition to these investments to create the next generation of oral care and influence consumer decision making, the Company will continue to make strategic investments in penetrating new demographics to drive controlled growth, while also executing against its profitability goals. Lastly, favorable industry dynamics continue to increase with broader acceptance of telehealth and specifically teledentistry, minimal penetration against the

total addressable market, a number of recent regulatory wins that should help remove barriers to access to care, and clear aligners gaining share in the overall industry.

Full Year 2022 Guidance

The Company reaffirmed its guidance as well as its assumptions underlying that guidance for the year ended December 31, 2022, previously provided on February 28, 2022.

Use of Non-GAAP Financial Measures

This earnings release contains certain non-GAAP financial measures, including adjusted EBITDA ("Adjusted EBITDA"). We provide a reconciliation of this non-GAAP financial measure to the most directly comparable GAAP financial measure below and in our Current Report on Form 8-K announcing our quarterly earnings results, which can be found on the SEC's website at www.sec.gov and our website at investors.smiledirectclub.com.

We utilize certain non-GAAP financial measures, including Adjusted EBITDA, to evaluate our actual operating performance and for planning and forecasting of future periods.

We define Adjusted EBITDA as net loss, plus depreciation and amortization, interest expense, income tax expense (benefit), equity-based

compensation, loss on extinguishment of debt, impairment of long-lived assets, abandonment and other related charges and certain other non-operating expenses, such as one-time store closure costs associated with our real estate repositioning strategy, severance, retention and other labor costs, certain one-time legal settlement costs, and unrealized foreign currency adjustments. We use Adjusted EBITDA when evaluating our performance when we believe that certain items are not indicative of operating performance. Adjusted EBITDA provides useful supplemental information to management regarding our operating performance, and we believe it will provide the same to members/stockholders.

We believe that Adjusted EBITDA will provide useful information to members/stockholders about our performance, financial condition, and results of operations for the following reasons: (i) Adjusted EBITDA is among the measures used by our management team to evaluate our operating performance and make day-to-day operating decisions and (ii) Adjusted EBITDA is frequently used by securities analysts, investors, lenders, and other interested parties as a common performance measure to compare results or estimate valuations across companies in our industry.

Adjusted EBITDA does not have a definition under GAAP, and our definition of Adjusted EBITDA may not be the same as, or comparable to, similarly titled measures used by other companies. Adjusted EBITDA should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. A reconciliation of Adjusted EBITDA to net loss, the most directly comparable GAAP financial measure, is set forth below.
